

BELT SYSTEM

BEGINNER

Stripes are awarded onto belts to demonstrate progress within a belt curriculum. To test for any belt, all stripes must be obtained, in addition to fulfilling all the requirements outlined by the online curriculum.

INTERMEDIATE

-White stripes are obtained by memorizing the respective Poomsae of a belt.

-Black stripes are obtained by demonstrating the required kicking and hand techniques.

-Red stripes are obtained by completing the remaining philosophical requirements.

ADVANCED

BLACK BELT

Due to the nature of the club, we allow for double tests at the earlier belts; to double test, the student must complete the curriculum requirements of both belts.

Double testing is allowed up to the blue/high-blue belt only. From there on, the student must spend at least an entire semester at each belt.

At the Danbo belt (black/red belt), the student must spend two consecutive semesters preparing for the 1st Dan examination.
